• [trannhi-portfolio](#)

Business Analyst & Product Owner with 1+ year of experience in requirements analysis, documentation, and system testing. Proficient in Agile/Scrum with strong cross-functional collaboration skills, supporting the delivery of fintech and digital banking solutions. Seeking to advance into a Senior BA/Product Manager role with a focus on improving user experience and operational efficiency.

### Experience

●	<b>Business Analyst/Product Owner</b> <i>Atom Solution – Ho Chi Minh City</i>	2024-2025
<b>Project - Digistore</b> Digital platform centralizing merchant onboarding, transaction management, and fee-routing for multi-bank operations.		
<b>Responsibilities:</b> Analyzed end-to-end onboarding flows, developed BRD/SRS, defined transaction fee rules, and mapped multi-bank routing. Coordinated SIT/UAT with Dev-QA to ensure accuracy of transaction and merchant data.		
<b>Impact:</b> Improved processing efficiency for merchant onboarding & transaction handling by 20-30%. Enhanced data accuracy and transaction reporting, enabling faster reconciliation and financial accounting.		
<b>Project - Open API/Open Banking</b> Platform enabling partners to explore, test, and integrate banking services through sandbox and production environments.		
<b>Responsibilities:</b> Designed developer journeys, created API specs, approval flows, and technical documentation. Performed API testing (Postman), standardized response format and error-handling scenarios.		
<b>Impact:</b> Shortened partner integration and go-live timelines by 20-25%. Improved API consistency and reduced onboarding queries through clearer documentation.		

### Education

●	<b>Ho Chi Minh University of Banking</b> • Management Information Systems (MIS)	2019-2024
---	--	-----------
